

Information Type Approval Mexico

Customer information regarding Type Approval in Mexico

We, CTC advanced GmbH, would like to inform you about the type approval processes in Mexico.

In Mexico, there are two Type Approval processes for radio devices, depending on radio technology used:

1. IFETEL (Federal Telecommunications Institute)

- Type Approval via documentation only
- Applicable for GSM/ 3G/ LTE, RFID, etc.
- Certificate valid for one year, after renewal with unlimited validity

2. IFETEL & NOM (Official Mexican Standard)

- In country testing for NOM Certificate of Conformity
- Applicable for Bluetooth, Wi-Fi, etc.
- Validity unlimited (the device might be selected for conformity inspection after a period of time > 6 months)

Required documentation:

- User manual (Spanish)
- Datasheet
- Operational description
- Block diagram
- Schematic
- External pictures

CTC advanced will be pleased to assist you in the approval process of your product on Mexico market. Please feel free to contact us for further information!
