

Information Type Approval Brazil

Customer information regarding TA Process in Brazil

We, CTC advanced GmbH, would like to inform you about the Type Approval process in **Brazil**.

The Approval process consists of 3 main steps:

- **In-Country Testing** (for most of the products):
Performance of tests → issuance of test reports
- **Certification:**
Evaluation of test reports/documentation → issuance of Certificate of Conformity (CoC) with limited validity
- **ANATEL Homologation:**
Analysis of all documents submitted → issuance of Homologation Certificate with unlimited validity

Please note:

When the products are similar, it is possible to certify them as a family (→ technical certificate covers all models).

CTC advanced will be pleased to assist you in the approval process for your product on Brazil market. Please feel free to contact us for further information!
